MONEY REMAINS UNALTERED

Influence of Advances Was Impaired by Some Equally Notable Relapses Where Attempts Were Made

NEW YORK, April 29.—The movement of prices was confused and irregular all of to-day, and there was evidence of a diminishing speculative interest. The wide movements in high-priced stocks continued a feature, but the influence of the advances was impaired by some equally notable reliapses in stocks where attempts were made to take profits. A case in point was that of New York, New Haven and Hartford, which fell violently 9 points on an attempt to market a small amount of stock because of the emphatic disclaimers from both Pennsylvania and New York Central authorities of the rumors of purchase of control. There was a late rally of several points in the stock. New York Central and Pennsylvania also quieted

from both Pennsylvania and New York Central authorities of the rumors of purchase of control. There was a late rally of several points in the stock. New York Central and Pennsylvania also quieted down from their recent activity and strength. In fact, there was very little show of strength throughout the Eastern railroad field. The session of the joint committee of operators and miners to discuss disputed points in the anthracite field was a repressive influence on all Coalers. The decrease reported in Reading surplus earnings for March was an unravorable influence. The very heavy decrease in net earnings of the Southern Railway for March was certainly not a stimulating influence, although it was accounted for largely by the notable increase in operating expenses. The Western railroads on the other hand were benefited by the crop news and by the weekly crop bulletin of the Weather Bureau, which was considered very favorable, not only regarding the condition of winter wheat, but as to the progress made in seeding corn and spring wheat.

The grain-carrying roads were also helped by the special strength of the Northwestern stocks, which rose 10½ and 5½, respectively. Rock Island gained an extreme 5½, but lost over 2 of it. The strength of the Wabash stocks and of the Wheeling and Lake Eric stocks was evidently due to the apparent certainty that the bid of the syndicate representing the Gould interest for the Western Maryland will be accepted. The Industrials were marked by quite as great irregularity as the railroads, and changes there were constant and variable. A further advance in foreign exchange market and a drop in the rate of sterling at Paris both contributed to narrow the margin still remaining from the gold export point.

The money market, however, was still undisturbed. Much attention was attracted by action of the Clearing House authorities requiring that institutions which shall be admitted hereofter to the privilege of clearing through members must first be cestablished for a year and must maintain in

CHICAGO, ILL., April 29.—Grain traders seemed in doubt to-day what side of the market to espouse. and for the most part professional. Very little commission business was reported, and the room traders had the market and the room traders had the market largely in their own hands. But while the market was dull the tone was firm, and while there was no startling advance, except in the case of Northwest, which gained 7 points between the highest and lowest, there were no recessions. With the exception above noted, the strongest stock among the railroads was Atchison, which sold as high as \$3½, it was very active. St. Paul was also active and strong, selling as high as \$12½. Most of the other railroad stocks remained sleady. Missouri, Kansas and Texas showed considerable activity and sold at \$3½, the highest price yet reached. Some of the local traders have for a long time been very bullish on this stock, as the road has been doing a fine business and shows excellent earnings. Colorado and Southern preferred was a little better, selling at \$4.5½.

Among the Industrials, American Cotten Oil and Colorado Fuel led. Cotton Oil sold at 57½ and Colorado Fuel at 110. Locomotive was also strong, the preferred selling a little above par and the common at 38½. Chemical opened at 76, but sold off somewhat later on. There was some trading in Consolidated Tobacco 's around 67½. The earnings of the Consolidated Company are very fine. The New York News makes this statement:

"Apropos of the continued strength of Continental Tobacco preferred and the Consolidated Tobacco bends (the 184 consolidated Tobacco company at 184 consolidated Tobacco company had a balance applicable to dividends on the common stock or to the treasury of the Consolidated Tobacco Company of 5.346.224, and the Continental Tobacco Company 34,181,518, a total of \$3,527.842.

"The report of the American Tobacco Company did not include \$1,500,000 of undivided not earnings for the year of the companies in which it is interested, and the Continental Tobacco Company had due it \$50,000 from the same source."

The New York Times says that it is reported that much more than a majority of the stock of the Louisville and Nashvill road has been deposited with J. P. Morgan & Co., and therefore the control of the road by that firm is absolute. The same paper said that J. W. Gates turned over to Mr. Morgan's concern 206,000 shares of Louisville and Nashville.

Produce Market.

The very considerable increase in the receipts of vegetables here is a matter of importance, in that it indicates an approaching drop in the prices, making vegetables more available and thus in some sense contracting the steep figures now placed upon meats. Florida goods are plentiful just now, and according to commission men will continue so.

The latest addition to the market is the cucumber, which has just shown up green and cool, altogether the master of the situation. The price of this luxury, when sold wholesale, ranges from \$3 to \$3.25 per basket. per basket. Strawberries are still high, but will in Il probability come down a peg or two hortly.
